IMS Engineering College, Ghaziabad, UP.

BTech'23 Software Engineering Student | Current : CGPA 7

C.S.H.P Public School, Ghaziabad, UP.

CBSE 12th with PCM with CS & PE (2019) | 73%

C.S.H.P Public School, Ghaziabad, UP.

CBSE 10th (2017) | CGPA 9

Projects

Personal Portfolio Website

- Built a website where I added my information, projects, internships, skills, interests and combined them into a clean representative form with HTML-CSS JavaScript.
- [Link](#)

Dice Game Website

- Built a clean and retro Responsive Dice game website with HTML-CSS JavaScript.
- In that, it's a 2 player game having 2 dice, which generates a random dice number when clicked on a button.
- [Link to website](#)

Face Mask Detection (ML Project)

- I used 2 types of images to train a model, train MobileNet V2 CNN, capture images with openCV in real time, detection accuracy is above 95%, using tensorflow, keras and python.

Work Experience

Techobytes, Business Analyst Intern (May'22 – Present)

- Working as Business Analyst on the Online Learning Portal, work alongside tech professionals and development team to identify the goals and analyze them.

Reactr, Digital Marketing Intern (Jan'22 – March'22)

- Worked as Graphic Designer and handled social media posts, objective was to handle Instagram and grow efficiently.
